

10% OFF the entire Wheaton Range – Ask for a Quote Today!

Organise, track and retrieve with colour coded ease.

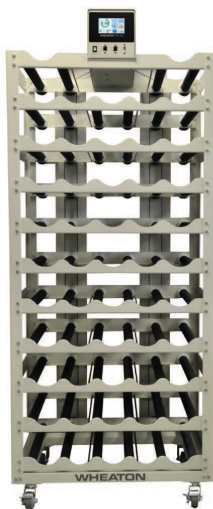

With BioBanking Solutions from Wheaton®.

WHEATON® BioBanking solutions offer a range of high-quality products for your cryogenic needs. Cryogenically store or track hundreds of thousands of samples with CryoELITE® Cryogenic vials, glass Cryule® Ampoules and CryoFile® storage boxes. The variety of tubes with colour coded and bar coded options, will make sample retrieval easier and more efficient. Contact us for more information or view the WHEATON® BioBanking guide on the following pages.

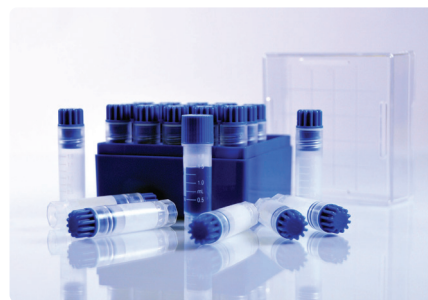

Also available from WHEATON'S BIOLOGICAL RANGE®:

- Plastic leakproof bottles and sterile PETG storage bottles
- Glass serum bottles and serum tubing vials with aluminium seals and stoppers for storage and lyophilisation
- Manual and automatic crimpers and decappers
- Liquid scintillation vials, screw cap sample vials and the new high recovery NextGen™ V vials for maximum sample retrieval
- Roller Bottles and other cell culture apparatus designed with customer input in mind in order to meet even the highest expectations of the vaccine and biologics industries
- Glass BOD bottles with pennyhead or robotic stoppers for incubating sewage, polluted waters and industrial waste for dissolved O₂ analysis
